TO: Mayor and Council
From: Kris M. Busse
Re: Approval of COVID-19 Preparedness Plan for City of Owatonna
Date: June 11, 2020

Purpose:

To approve the COVID-19 Preparedness Plan for the City of Owatonna.

Background:

Under [Executive Order 20-74](#), released by Gov. Tim Walz on June 5, critical sector businesses — including government entities like cities — are now required to adopt a COVID-19 Preparedness Plan.

The city has developed a COVID-19 Preparedness Plan for the City of Owatonna. Each individual departments or work areas within the city may also develop a specific work plan in addition to the City of Owatonna Plan. The COVID-19 Preparedness Plan for the City of Owatonna has been communicated to all staff through email and discussed within their departments.

The preparedness plans are ever changing due to new guidelines set out by Governor Walz. The HR Department is continuously monitoring the guidelines to make sure the City of Owatonna stays in compliance with the orders.

The City of Owatonna takes the health and safety of all staff and citizens very seriously. If anyone has any questions or concerns, we respectfully ask them to contact Lynn Gorski the Human Resources Director.

Budget Impact:

The budget impact is the cost of supplies and engineering barriers that are required to be in place for the protection of city staff and the community while in our building or participating in our activities.

Staff recommendation:

I recommend approval of the COVID-19 Preparedness Plan for City of Owatonna and authorize the City Administrator to approve any changes to the plan moving forward.

COVID-19 Preparedness Plan for City of Owatonna

City of Owatonna is committed to providing a safe and healthy workplace for all our workers. To ensure that, we have developed the following Preparedness Plan in response to the COVID-19 pandemic. Our goal is to mitigate the potential for transmission of COVID-19 in our workplaces. This requires full cooperation among workers and management. Only through this cooperative effort can we establish and maintain the safety and health of our workers and workplaces.

Management and workers are responsible for implementing and complying with all aspects of this Preparedness Plan. City of Owatonna managers and supervisors have our full support in enforcing the provisions of this plan.

Our Preparedness Plan follows Centers for Disease Control and Prevention (CDC) and Minnesota Department of Health (MDH) guidelines and OSHA standards related to COVID-19 and addresses:

- Prompt identification and isolation of sick workers and workers exposed to sickness;
- Reducing the spread of COVID-19 in the workplace;
- Additional information; and
- Communication and training

Stay Home if You Feel Ill

Many times, with the best of intentions, employees report to or stay at work even though they feel ill, but employees should not stay at nor report to work if they feel ill due to the current circumstances. If you feel ill, please inform your supervisor or designee immediately, leave immediately if you are at work, and do not return to work unless and until you are no longer ill, or a pandemic virus is unlikely. Employees who report to work ill will be sent home in accordance with these health guidelines. We may request appropriate information related to illnesses from any employee before reporting to work and documentation from an ill employee before such employee may return to work.

Stay Home if COVID-19 Symptoms or Positive Test

The following guidelines do not apply to our first responders within the Police and Fire Department.

If employees have any of the symptoms described below and/or have tested positive for COVID-19, you must inform your supervisor or designee immediately, leave immediately if you are at work, and do not return to work unless and until the guidelines below are met. Employees who are at or report to work under these circumstances will be sent home in accordance with these health guidelines. We may request appropriate information related to these items from any employee before reporting to work and documentation from an ill employee before such employee may return to work.

It is critical that employees **check for, leave work, and do not report to work** while they are experiencing **any** symptoms such as the following:

- Fever (100.4 degrees Fahrenheit or higher)
- Cough
- Shortness of breath or difficulty breathing
- Chills
- Repeated shaking with chills
- Muscle pain
- Headache
- Sore throat
- New loss of taste or smell

If you have COVID-19 symptoms described above, but have not been tested, do not come to work until:

- You have had no fever for at least 72 hours (that is three full days of no fever without the use of medicine that reduces fevers); and
- Other symptoms have improved (for example, your cough or shortness of breath have improved); and
- At least 7 days have passed since your symptoms first appeared; and
- You have followed the guidance of your healthcare provider and local health department.

If you have had COVID-19 symptoms described above and have tested positive for COVID-19, do not come to work until:

- You no longer have a fever (without the use of medicine that reduces fevers); and
- other symptoms have improved (for example, when your cough or shortness of breath have improved); and
- you received two negative tests in a row, 24 hours apart. Your doctor will follow CDC guidelines; and
- You have followed the guidance of your healthcare provider and local health department.

If you have not had COVID-19 symptoms described above but tested positive for COVID-19, do not come to work until:

- At least 7 days have passed since the date of your first positive COVID-19 diagnostic test; and
- You have had no subsequent illness; and
- You have remained asymptomatic; and
- More than 3 days have passed since your discontinuation of isolation; and
- You have followed the guidance of your healthcare provider and local health department.

If you develop any of the following **emergency warning signs**, as specified by the CDC, get **medical attention immediately**:

- Trouble breathing
- Persistent pain or pressure in the chest
- New confusion or inability to arouse
- Bluish lips or face

If you are sick with COVID-19 or suspect you are infected with the virus that causes COVID-19, you should contact your health care provider immediately and take the necessary steps to help prevent the disease from spreading to people in your home, place of employment, and community, which includes staying at home.

Stay Home if Exposed to COVID-19

The following guidelines do not apply our first responders within the Police and Fire Department.

Close Contact

If a household member or guest, an intimate partner, or someone you are providing care for has COVID-19 symptoms, or if you have been in close contact (less than 6 feet) for a prolonged period of time with a person with COVID-19 symptoms, you should:

- Inform your supervisor or designee immediately
- Leave work immediately if you are at work
- Stay home until 14 days after last exposure and maintain social distance (at least 6 feet) from others at all times
- Self-monitor for symptoms
 - Check temperature twice a day
 - Watch for fever, cough, or shortness of breath
- Avoid contact with people at higher risk for severe illness (unless they live in the same home and had same exposure)
- Follow CDC guidance if symptoms develop

Travel

If you traveled to a country with widespread sustained (ongoing) transmission of COVID-19 as established by the CDC, or traveled on a cruise ship or river boat:

- Inform your supervisor or designee immediately
- Leave work immediately if you are at work
- Stay home until 14 days after your last exposure and maintain social distance (at least 6 feet) from others at all times
- Self-monitor for symptoms
 - Check temperature twice a day
 - Watch for fever, cough, or shortness of breath

- Avoid contact with people at higher risk for severe illness (unless they live in the same home and had same exposure)
- Follow CDC guidance if symptoms develop

If you traveled from any other country:

- Inform your supervisor or designee for a determination of whether you should stay home, or leave work if you are at work
- Practice social distancing
 - Maintain a distance of at least 6 feet from others
 - Stay out of crowded places
- Be alert for symptoms
 - Watch for fever, cough, shortness of breath
 - Take temperature if symptoms develop
- Follow CDC guidance if symptoms develop

If you are planning on traveling:

- Carefully consider whether travel is necessary
- Inform your supervisor or designee
- Check the CDC's Traveler's Health Notices for the latest guidance and recommendations for each country to which you will travel.
 - Self-monitor for symptoms before starting travel
 - Check temperature twice a day
 - Watch for fever, cough, or shortness of breath
- If you become sick after starting travel, promptly call a healthcare provider for advice as needed, and inform your supervisor or designee.
 - If outside the United States, a U.S. consular office can help locate healthcare services. However, U.S. embassies, consulates, and military facilities do not have the legal authority, capability, and resources to evacuate or give medicines, vaccines, or medical care to private U.S. citizens overseas.

Inability to be at Work

We provide paid sick time and other benefits to compensate eligible employees who are unable to work under certain circumstances. You should refer to applicable personnel policies, labor contracts, and notices related to such benefits.

City of Owatonna may consider allowing certain employees in certain positions to work from home. For more information about such arrangements, please contact your supervisor and refer to applicable personnel policies and notices.

Reduce the Spread of COVID-19

Basic Hygiene

Wash your hands frequently with warm, soapy water for at least 20 seconds, but especially at the beginning and end of their shift, prior to any mealtimes and after using the restroom. All visitors to the facility will be required to wash their hands prior to or immediately upon entering the facility. Use hand sanitizer with at least 60% alcohol if soap and water are not available.

- We will provide alcohol-based hand sanitizers throughout the workplace and in common areas.

Cover your mouth and nose with a tissue when you cough or sneeze or use the inside of your elbow. Throw used tissues in the trash and immediately wash hands with soap and water for at least 20 seconds. If soap and water are not available, use hand sanitizer containing at least 60% alcohol.

Avoid touching your eyes, nose, and mouth with unwashed hands.

Clean and Disinfect

Clean and disinfect frequently touched objects and surfaces such as workstations, keyboards, telephones, handrails, and doorknobs. Dirty surfaces can be cleaned with soap and water prior to disinfection.

- Cleaning sprays and wipes will also be provided to clean and disinfect frequently touched objects and surfaces such as telephones and keyboards. You should clean these office surfaces daily.

Social Distancing

Maintain a distance of at least 6 feet from other employees, patrons, customers, etc.

Avoid using other employees' phones, desks, offices, or other work tools and equipment, when possible. If necessary, clean and disinfect them before and after use.

Use telephone and video conferencing instead of face-to-face meetings as much as possible during this outbreak.

Avoid people who are sick with the above-symptoms or known to have traveled internationally or in a community in which COVID-19 is widespread.

Face Masks

You are encouraged to wear a cloth face cover while at work as a means of protecting others if you are not able to social distance at least 6 feet away from others.

Further guidance on facemasks is available from the CDC here: <https://www.cdc.gov/coronavirus/2019-ncov/prevent-getting-sick/diy-cloth-face-coverings.html>

Personal Protective Equipment

Guidance related to any PPE that should be worn by employees to minimize exposure to hazards that cause serious workplace injuries and illnesses will be communicated to specific positions by supervisors.

Other Measures

Different areas of the organization will be taking specific measures to reduce the spread related to the above items. City of Owatonna administration and supervisors will communicate to you such measures.

Employee Group-Specific Measures

More specific measures may be taken for specific employee groups based on their work, sites, and risk of exposure to illness. We will be continually monitoring how to handle related workplace issues and will update you accordingly. In addition, City of Owatonna administration and supervisors will communicate to you any impacted operational issues related to your position.

Additional Information

Additional general guidance on COVID-19 is available here:

- CDC Fact Sheet: <https://www.cdc.gov/coronavirus/2019-ncov/downloads/2019-ncov-factsheet.pdf>
- MDH Guidance: <https://www.health.state.mn.us/diseases/coronavirus/index.html>

Communications and Training

This Preparedness Plan will be communicated, and training will be provided to all workers. Managers and supervisors are to monitor how effective the program has been implemented.

This Preparedness Plan has been certified by City of Owatonna council and management. This plan shall be posted throughout the workplace, online, and on the network. It will be updated as necessary.

Nothing in this communication establishes any precedent or practice. The City of Owatonna may change or eliminate these items, or portions thereof, at any time and without notice.

This plan supplements existing employment policies, rules, procedures, and regulations. All current employment policies, rules, procedures, and regulations remain in full effect, except for instances where this plan directly contradicts another current policy, rule, procedure, or regulation in which case this plan supersedes existing policy, rule, procedure, or regulation. Therefore, employees are encouraged to review all other such policies, rules, procedures, and regulations in conjunction with this plan.

Please contact Human Resources Director Lynn Gorski at lynn.gorski@ci.owatonna.mn.us, (507)-774-7345, or in-person with any questions or concerns.

Thank you for your cooperation.
